

Planning a Holiday Dinner

Thanksgiving dinner will be served at your home this year for ten people. Using the local supermarket advertisements, plan the meal's cost using the following menu and serving recommendations. Calculate the quantity needed. Remember you need to round up to the next amount since you need enough food for everyone. Calculate the cost of each item by multiplying the quantity by the cost. Do all of your calculations in the space provided and circle your answer.

— **Turkey:** 1 pound per person

Transfer your quantity and cost calculations to the “Planning a Holiday Dinner” table.

Calculate the total cost of the meal by adding up all of the items to be purchased in the “Planning a Holiday Dinner” table. Write the total cost in the table.

Write a check for the total cost of the meal.

Cut out a picture of each item, if available, with the price from your grocery advertisement. Using a piece of construction paper, decorate your project with these pictures. Cut out the check and attach it your project along with the “Planning a Holiday Dinner” table. You may create this project in a book format or as a poster.

Paying for your Groceries

You left your wallet at home with your credit cards so you will have to pay for your holiday dinner with a check. Please fill out the check as follows.

1. Date the check with today's date including the year.
2. Write the grocery store name in the "Pay to the order of".
3. Write the amount of your groceries in standard form. Please remember to use a decimal point.
4. Write in word form the amount of your groceries. Please write small enough so that the amount can be written in the line given. Be aware that this is the amount that the bank will remove from your checking account so accuracy does matter.
5. Sign the check with your signature in the lower right hand corner. A signature is your formal name and is written in cursive.
6. Write Holiday Groceries in the "For" line.
